

Skeena District Conservatives to Be More Active

After two years of inactivity the Skeena District Central Conservative Association came to life last Saturday night when a meeting was held in the town of Hazelton. Although the meeting had been hastily called there was an exceptionally good representation from points along the railway. The people from the west end (Terrace, Remo, Copper City, Little Canyon and Usk) all had delegates there. Hazelton, New Hazelton, Kispiox, Smithers and Telkwa, Glentanna, also were represented. President R. S. Sargent occupied the chair and after the preliminary business the delegates began to express themselves in a way which delighted the hearts of the federal member, J. C. Brady, and F. M. Dockrill, the candidate in the last provincial election. There is now an interest in the party and in Conservative principles which has not been manifested for numerous years in this part of the province.

There is to be a convention of the Conservatives of Skeena provincial riding on October 10 at Hazelton for re-organization, etc. Notices will be sent out so that a large attendance will be on hand. It was also decided that in future the Central Association should meet every three months for the purpose of considering the needs and requests of the various locals. All matters of any importance will in future come before the Central Association.

INDIAN DOGS ON RAMPAGE

Destroy many Turkeys at Kitwanga—Dog Taxes not Collected

Complaint is made that Indian dogs at Kitwanga have been doing great damage to poultry flocks. One man lost 32 turkeys a couple of weeks ago and again last week the dogs were back at his flock. The Indian dog menace has always been a serious one since the white man has started developing agricultural interests. It is not only at Kitwanga that Indian dogs have destroyed much poultry, but in this section as well. The dogs are not worth the powder to shoot them, and yet the Indians are permitted to breed them and turn them loose without a tag. It is doubtful if there is an Indian dog in the country with a dog license. Few of them, if any, are worth the price of a license, yet they can do a wonderful amount of damage in a chicken pen or among young pigs or sheep. But, while Indian dogs are as bad as painted, it is not the intention of the Herald to blame them for all things that are done. There are hundreds of dogs belonging to white men that are just as worthless as any Indian dog and which cause quite as much damage. Few white men pay a license for their dogs either. Just why the dog tax has been allowed to slip for several years has not yet been made public. It cannot be that the country does not need the money.

MET P. G. E. MINERAL SURVEYORS

While on a business trip in connection with the department of mines, D. Lay, the resident mining engineer for this northern district, met the survey parties at Prince George who are working on the mineral surveys of the country north of Prince George and through which the Pacific Great Eastern railway will run when extended. Dean Brock and Prof. Williams are in charge of the work.

Hon. R. B. Bennett, leader of the Conservative party, who will hold several meetings in Skeena next month.

Hon. Bennett Coming Next Month to Talk

Hon. R. B. Bennett, leader of the Conservative party in Canada and the next premier of Canada, following the next general election, which, it stated will be held in 1930, will visit Skeena riding early in August. The leader is giving about a week of his time in B. C. to Skeena riding and he will speak at Smithers for about an hour on August 13th upon the arrival of train there. It is hoped to arrange matters so that he will also be able to speak to the people of the Terrace section for a few minutes from the train platform the same day. Mr. Bennett will hold meetings at Ocean Falls, Anyox, Premier Mine, Stewart, Prince Rupert, as well as Smithers. Accompanying the leader of the Conservatives will be Miss Bennett, Sir George Pearly and Lady Pearly, Gen. A. D. McRae, chief organizer of the party in the Dominion, and probably others. Mr. Brady will meet the party at Ocean Falls and accompany them through the riding. After the visit of the leader the local member will spend a week at home and then will start on a trip through the riding, visiting every possible point, as has been his custom since his election. The summer promises to be a very active one for the Conservatives, both in federal and provincial circles.

HAZELTON INDIAN DROWNED

Son of First Native to Take up Christian Work under Rev. John Field

Ernest Wade, Indian, and Captain of the Church Army, Hazelton, was drowned while fishing from a boat off Sunnyside cannery on Monday night of last week. Wade was the son of the first Indian Christian worker who assisted the late Rev. John Field in the Hazelton mission.

According to a life long custom Wade went to the canneries this season to fish and was out with a small boy in a boat. He was trying to move his net in bad weather and was drawn overboard. The boy was unable to render any assistance. Later the boat was picked up by Howard Spencer and taken to Sunnyside, but the body was not recovered.

Fred Griffin and J. A. Macdonald of Smithers were Sunday visitors here and Skeena Crossing.

The Hazelton Horticultural Society is again supplying flowers to the C. N. R. dining cars.

PRINCE RUPERT NEWS LETTER

With a site selected at Falls River, for its plant, and merchandise arriving in the Besner Block store at Prince Rupert, there is more evidence of activity by the Power Corporation of Canada. An early announcement of a start on construction of the power plant is looked for.

There is nothing in particular to worry about in the Old country, declares T. H. Johnson, manager of Canadian Fish and Cold Storage Co., who is back from a trip overseas. The Labor Government, he says, is sound, and has the best of intentions, without fantastic ideas of working miracles. The unemployment and dole situation, he says is somewhat exaggerated.

Prince Rupert is cheerfully disposed toward the news of the purchase of the Canadian Northeastern Ry., at Stewart, by the Consolidated Co. It is felt that there is no harm in having a more prosperous neighbor, and that the investment of more capital in the north is welcome, from all standpoints.

The Convention of the Canadian Fisheries Association in Prince Rupert August 1-2-3 will be an event of importance, and reception plans are being laid accordingly. Some of the most influential business men in the Dominion will be here, and nothing will be overlooked to make this port, as a deep sea fishing centre, appear to best advantage.

Surprising his numerous friends in the city, John Murray, pioneer citizen, slipped away quietly to Vancouver, last week, and returned with his bride a Miss E. Grey of New Glasgow, N. S. Mr. Murray, whose former wife died about two years ago, has lived here since the city started. In fact, he was here earlier than that. Thirty-five years ago, as a member of a lumbering party, he beheld what was destined to be the townsite of Prince Rupert from the summit of Mount Oldfield.

BUILDING FOUR MORE CAMPS

Consolidated Mining & Smelting Co. Well Pleased with Showings on Legate Creek

At Pacific there is much doing in the way of mining. Up Legate Creek the Consolidated Mining and Smelting Co. have been developing mineral claims. So satisfactory have been the results obtained that now the company has control of four groups on that same mountain and this season four separate camps are being established, and four gangs of workmen will be employed opening up the claims. The four groups are E. & M., the E. & K., the Frisco and the Zonamay. The trail to the properties has been greatly improved and after this season's work it is quite possible that work can be continued all the year on these properties.

Dr. Wrench reports an exceptionally fine meeting of the medical men at Prince George where a branch of the B. C. organization was formed. There were doctors present all the way from Hazelton to McBride.

J. G. Leggat, relieving agent for the C. N. R., left here Tuesday night for Burns Lake where he will relieve the agent there for a time.

Rev. T. D. Proctor, Rector of St. Peter's Church, Hazelton.

Rev. Proctor's Seventh Year Now Completed

Seven years ago on the 1st of July Rev. T. D. Proctor arrived at Hazelton to take over the work of the church of England in that section. Those years have been successful and the church has made progress under his ministrations. Mr. Proctor came to Hazelton from Lashburn, Sask., where he spent three years covering an extensive territory which, after he left, required three ordained men to continue. The following is taken from "The Sheaf" of April 1919, (the Sheaf is the University of Saskatchewan Journal):—

"He was born in Manchester, the world's great cotton centre. He received his early education at a church school, proceeding later to the Manchester School of Commerce. It was at this time that he received his first inspiration for a ministerial career, being licensed by the Bishop of Manchester as a Lay Reader. In 1913 he heard Bishop Lloyd's appeal for the church in western Canada, and arrived in Saskatoon in June of that year. In the fall he entered Emmanuel College, where he has shown a spirit of determination to achieve his ideal. has won for him the esteem of his fellow students. In all college activities he has shown a keen interest, especially in athletics and debates. He has done good mission work at Coxby, Ardee, Hewitt's Landing, Hughenden, Sutherland and Patience Lake, during the summers of 1913 to 1918.

"In 1915 he answered his country's call and joined the C. A. M. C., but was discharged in 1916, owing to illness. In 1918 he was again accepted and went to Regina where he soon gained promotion to the rank of sergeant. Last December he was able to again resume his studies, and thus finish his college work. He graduated from Emmanuel (post-graduate) with the Divinity Testamur and L. Th., and carries with him the good wishes of all his fellow students."

MORE RUPERT CARS HERE

Three more cars from Prince Rupert were shipped to New Hazelton last week and the owners arrived by passenger train to continue their journey to the south or east over the highway. The parties thus travelling were Earl Barry and Mr. Morrison; Dr. Alexander and family bound for Vancouver and the south; Jas. Black and Thos. Priest for Vancouver. Mr. Barry and party are on their way east and are equipped to camp all the way.

The Omineca Herald is \$2.00 a year

J. C. Brady in Hazelton for a Tory Meeting

J. C. Brady, M.P., just recently returned from the session of the House of Commons at Ottawa, arrived in Hazelton on Saturday evening to meet the representative Conservatives from the Skeena district. He expressed himself as pleased with having come as there was such a goodly number of delegates present. As the business of the Association had taken up so much time, the federal member stated that he would not touch on matters of the session but refer only to a few parts of importance to this district. He predicted a return to power of the Conservative party after the next general election with Hon. R. B. Bennett as premier. From coast to coast the people of Canada were aroused over the tariff question and the lack of action on the part of the King government at Ottawa. Even the prairie provinces were beginning to see the importance of the tariff question to them.

Mr. Brady said that he felt greatly encouraged as a result of the last session and the attention he received at the hands of the various ministers with whom he had business. He had succeeded in securing for his riding several concessions for which he had been trying for years.

Smithers Notes

Frank H. Taylor returned to town from Vancouver on Saturday night after completing his new deal with Noah Timmins of the Hollinger Mine for financing and development of the properties of Owen Lake Mining & Development Co. Ltd. Control passes to Timmins at a price of about a million and a quarter dollars but Mr. Taylor is retained as President and resident manager and holds about one fifth of the stock.

Rev. W. McKenzie of Powell River, new minister at the United Church in Smithers, preached for the first time last Sunday evening. A reception is being held at the church on Wednesday, to-night.

Howard Tilton, a Mining Engineer from the Monarch Mine at Field, was making examinations on Hudson Bay Mountain last week for his principal's—the Goldfields Consolidated Co. of Nevada.

At the Council meeting of the Smithers District Board of Trade on Monday evening Vice-President H. F. Noel reported as delegate to the convention of Associated Boards at Prince Rupert on June 27th. A recommendation was made to the Public Works Department on the necessity for graveling the highway from Prince George to Hazelton, particularly in Omineca Electoral District. It was also decided to change the name of the organization from Board of Trade to Chamber of Commerce, which is the more generally used term.

The preliminary hearing is proceeding before Stipendiary Magistrate S. H. Hoskins to-day on the charge of manslaughter laid against David Lewis Jones arising out of the death of the two men—Ferner and Karlson—killed in the motor accident on June 20th.

Wm. Ware of the Hudson's Bay Co., with headquarters in Vancouver, was a visitor to the Hazelton post this week.

NEW ROAD FOR OWEN LAKE

As a result of the entrance of the Timmons interests into the Owen Lake country the provincial government is going to lend assistance in the development of the mining of that district by the construction of a thirty mile road from Houston on the C. N. R. into the Owen Lake country. Work on this road will be continued all summer until finished. The mining company is now working on plans for greatly extending the operations at the property.

NORTHERN B. C. TO THE FORE

The missionary work that has been carried on for the past twenty years in behalf of the northern and central part of British Columbia has made good and just at a time when the people living in that great central empire were about to give up in the face of many discouragements, the world at large has awakened to the fact that the best bet in Canada, or in the known world for pioneer investments, is in the northern and central parts of British Columbia, and many of us who have been growing old in the work of advancing the interests of the country, are now about to see many of their dreams realized. From all parts of the world huge sums of money are pouring into this part of the province, or are being gathered together to come in. Every line of industry is being developed from the humble farm to the continental railway. With the money are coming the people and, everything points to great progress for many years to come.

One of the greatest companies in the world, if not indeed, the greatest company, the C. P. R. and its subsidiary, Trail Consolidated, have already an investment in the north which means that the finances and the brains of the whole organization are at the back of this new country. For the past couple of years the Consolidated people have been acquiring and developing mineral properties. They have many properties along the Canadian National railway line and in the far north where there is yet no railway connection, and no means of transportation whatever. But the transportation is going to be provided at a very early date. The purchase of the Canadian Northeastern railway starting at Stewart, is the first step of a plan to open up the north from the coast through to the Groundhog coal fields, the Ingenica and across to Finlay Forks at which point connections will be made for the Peace River grain country.

Power Corporations are securing the best water rights in the north and the plans are prepared for the development of electrical energy on a scale a few years ago would have been considered fantastic.

One of the great features favoring all this expansion and development is the favorable attitude of the government of British Columbia, and of the favorable attitude of the Conservative party and leader in federal affairs. At all times the Conservative party has moved hand in hand with advancement and that part of the policy has never been altered and is as much to the front today as ever it was. There is also evidence that the party at Ottawa and the party at Victoria are working in perfect harmony and that the big development is not being confined to any one section, but the whole north and centre of the province is to be put on a highly productive basis. This is to include the development of the natural resources, such as mines and timber, and also the agricultural lands and followed up by industries of all kinds to supply the requirements of the new population that has started to arrive. Big days and bright days are in store for northern and central British Columbia.

Mr. and Mrs. Frank Morris of Prince Rupert spent several days visiting with friends in this part of the district and at Smithers. They were accompanied to New Hazelton by Mrs. D. Jones of Smithers.

PUBLIC OPINION

Nowadays is bitterly hostile to any form of foolishness which endangers life and property. The Reckless Driver, the Man Who Rocks the Boat, the Man Who Didn't Know it was Loaded, are gradually disappearing under pressure of public opinion. The Man Who is Careless with Fire is the greatest menace of them all. Let public opinion focus upon him.

PREVENT FOREST FIRES--You can help

BRITISH COLUMBIA FOREST SERVICE

RUSH FOR LAND STILL GROWING

The land rush to Northern Alberta continues apace. It is reported by the settlers with capital aggregating more than one million dollars, had gone into the Peace River Country and Northern Alberta since the first of the year and up until the first week of April. It is estimated that during April alone nearly 1,500 settlers will settle in these districts. During the period of April 1st. to 15, a total of 312 settlers with the Edmonton offices of the Canadian National Railways Colonization Department that approximately 1,000 new capital totalling \$170,000 went to the was one man with \$20,000 capital and other with \$14,000 and another with \$12,000.

During the first quarter of the year 400,000 acres of government land were taken up by homesteaders, in the four western provinces, an increase of

nearly 1000,000 acres over the same period of last year. In the period mentioned, 136 homesteads were taken in Manitoba, 994 in Saskatchewan, 1277 in Alberta and 96 in B. C. Home standing in northern Alberta has been unprecedented in this period.

Every month so far this year has seen homestead entries at the Edmonton office double over the corresponding months last year. For March alone the total was 226, as compared with March 1928.

Last year there were 3,370 homesteads filed in the Edmonton district, an increase of 147 per cent over the previous year. There is every reason to believe that the increase noted so far this year will not only be kept up, but may even exceed that of 1928, over 1927. Even if the figures only double, it will mean that close to 7000 homesteads will be taken up in this district alone.

BABY'S FOOD

Every baby should be breast fed. There are few mothers who cannot nurse their babies if they try to do so and there are few mothers who would not make the effort if they understood how important it is that the baby should have his natural food. There is no other milk, or no preparation which is just as good as breast milk. Breast milk is purer, cleaner and more easily digested than any other food, and it requires no preparation.

Mothers sometimes wean their babies because they think they have not enough milk, or that the quality of their milk is not good. This is a serious mistake. Every effort should be made to keep up the quantity available and it is much better for the baby that he receive some breast milk than none at all. If there is not sufficient breast milk, the necessary supplementary amount of nourishment is given after the nursing according to the feeding

formula given by the physician.

The baby should be fed at regular intervals. Not only is this desirable from the standpoint of his digestion but it is important as the start of proper habits in the child. If he is asleep at nursing time, he should be awakened and he should not be allowed to fall asleep while he is at the breast. The feeding takes from ten to fifteen minutes. After feeding, the baby should be held up over the shoulder in order to allow him to get rid of the air which he has swallowed.

During the hot weather particularly the fact that babies become thirsty should not be forgotten, and the baby should be offered cooled water, previously boiled if there is any question of purity, between feedings.

Under ordinary conditions the baby is nursed for eight or nine months; longer periods are not good for the child. The baby should not be weaned except on the advice of the doctor who will advise as to what diet he is to receive. As a rule babies are not weaned during the hot summer months.

Breast-feeding makes for stronger, healthier babies, and it protects them from the danger of disease. Artificial feeding, even of the highest quality, is at the best, an attempt to imitate the natural feeding.

THE FEEDING OF POULTRY ON RANGE

In order to produce good poultry stock, it is necessary to induce a continuous growth throughout the growing season. To accomplish this, keep the flock comfortable, well supplied with good feed and abundance of water.

At the Central Experimental Farm, Ottawa, the growing stock is cared for as follows: the pullets and cockerels are put on separate fields of clover or alfalfa which have been free of poultry for at least three seasons, during which time a series of crop rotations have been practiced. When possible this range of succulent green food is generally located beside a field of corn or sunflowers, or an orchard, where the chicks can get extra green food, & grubs, and have lots of shade during the hot days. The movable range house, one that keeps the birds cool and comfortable during the warm and sultry evenings is so constructed as to make fresh air the limiting factor. Plenty of roosting space is required. The water utensils are placed in the shade near the self feeding hoppers. Five foot double hoppers, partitioned for mash, grain, shell and grit are conveniently located. The growing mash is composed of: bran, middlings, finely ground yellow corn and oat flour, equal parts, 1 per cent fine table salt one per cent cod liver oil and (on good range) five per cent animal feed mixture of ground meat scrap, bone meal, fish meal, milk powder and cod liver meal. The animal feed is varied according to the season or the rate of sexual development required. The grain mixture consists of cracked corn and wheat, equal parts, and one half part of plump oats. This method of feeding avoids waste and minimizes labour. However, if sparrows are quite numerous it is good economy to close the whole grain section of the hopper and practice hand-feeding. The water vessels and hoppers are moved to fresh ground occasionally.

A copy of Bulletin No. 1, "Poultry Feeds and Feeding" should be in every poultry keeper's possession. It may be obtained, free, from Publications Branch, Department of Agriculture, Ottawa, Ont.

Obituary

THE LATE MRS. MARSHALL

Word was received here last week of the death of Mrs. Myrtle M. Marshall, wife of Thomas Marshall of Hazelton. While the serious illness of the deceased had been realized the end came unexpectedly soon. Some weeks ago the late Mrs. Marshall consulted her doctor who advised her seeing a specialist. She went to Vancouver and her serious condition was soon realized. Mr. Marshall went down a few days later and her oldest son Mitchell, on his way home for the summer vacation, continued his journey to Vancouver. For a considerable time Mrs. Marshall had been in declining health. She was born in Ontario 47 years ago and had resided in British Columbia for the past sixteen years.

Those left to mourn her loss beside her husband are three sons, Mitchell, Ward and Thomas, her father and mother Mr. and Mrs. James Newman of Hazelton and three sisters, Mrs. William Foster of Oliver, B. C., Mrs. R. Fitzsimmons of Tacoma, Wash., and Mrs. M. Velo of Hazelton.

The funeral was held on Thursday, July 4th with interment taking place at Ocean View Burial Park. Rev. Jas. E. Johnston officiated.

The late Mrs. Marshall was well and favorably known in this district and much sympathy is extended to the bereaved family.

Mrs. R. S. Sargent entertained the young people to a dance at her home in Hazelton on Friday evening.

TWO GOLF LEADERS

Western Canada is very much in the golfing limelight this year with both the Canadian Amateur and Western Canada Amateur Championships being played over the Jasper Park Lodge course, Jasper National Park, Alberta, August 19-24, inclusive. Much organization has been necessary to make sure of the success of these tournaments and none have worked harder than C. E. Harvey, of Winnipeg, president of the Royal Canadian Golf Association (left), and C. W. Jackson, of Winnipeg, president of the Western Canada Golf Association.

WHY HEADS TO LOCOMOTIVE

C. N. R. Sleeping Car Officials uncertain—May have just happened To be Style

Winnipeg—There is more than mere habit behind the practice of making up sleeping car berths so that the occupants sleep with their head toward the engine and the direction the train is moving, according to Walter Pratt, General Manager of Hotels, Sleeping and Dining cars of the Canadian National Railways.

But because of its practice ever since the beginning of railroading on the North American continent it is a custom, he says, which has taken on undue importance in the public eye. There is more than one case on record in the Canadian National Railways where an entire sleeping car has had to be made over to satisfy the whims of travellers in this regard.

When the first sleeping car was put in service on this side of the water, the Company had to decide the very

elementary question of which way the passenger would sleep, with his head, or with his feet pointing forward. The former attitude was chosen because it was felt that any backward rush of the blood which might be occasioned by the movement of the train would be less sensible if directed toward the feet rather than toward the head.

ATTENDED MEDICAL CONVENTION

Dr. L. B. Winch spent a few days in Prince Rupert last week end attending a medical association convention. After the election of officers which took place following a dinner in the Hotel Prince Rupert on Friday evening post-graduate lectures were given by Dr. Norman B. Gwyn of Toronto, Dr. H. E. Ridewood of Victoria and Dr. D. E. H. Cleveland of Vancouver. The new officers are Dr. D. R. Leary of Anyox and Dr. J. W. Large of Port Simpson Secretary.

Advertised Goods Are Lower

ADVERTISING turns over stocks rapidly, and therefore multiplies profits. This means that prices in a shop which advertises can be short rather than long.

Of this you may be sure: Prices in a shop which advertises are not MORE than in a shop which does not advertise. The chances are that they are oftentimes lower.

This, also, is generally true: You will find better goods, better values and better service in those shops which turn over their stocks rapidly. This means, as a general thing, shops which advertise.

A NOTE TO MERCHANTS

Advertising costs you nothing—it is paid for by the profits of increased sales.

Advertising is easy—it is simply saying in writing what you say to your customers in your shop. Turn over stocks quickly, if you would make more money.

The new gas shovel which the department of public works shipped here spring and which has recently been on the Nine Mile wagon road, has this week been widening that piece of road between Hazelton and the low level bridge. When that is finished the big shovel will be put on the main highway and start east to widen out the bad places along the route. It will go as far east as the boundary of Skeena riding, about two miles east of Telkwa.

HAZELTON, B. C.

Oil

Smoking forests or smoking chimneys—
WHICH?

WE CAN'T HAVE BOTH

Over one-half of all Canada's industries depend on wood as a raw material. When the forests are destroyed mills must close down, railway earnings must suffer, trade must stagnate and prosperity must vanish.

Issued by authority of
Honourable Charles Stewart,
Minister of the Interior.

MIDSUMMER DANCE

To be held by the citizens of Hazelton in Assembly hall, Friday, July 19 at 9 p. m.

Come one, Come all

In Summer Dress or Overalls

Come in Anything at all

Help us to get a Community hall.

Chappell's Orchestra in attendance.

The repairs to the Sealy Gulch bridge are progressing satisfactorily, and on Monday Engineer Wetterstrand arrived from Winnipeg to relieve Mr. Pepper who has been in charge of the work. The latter returned to Winnipeg on Tuesday night. Mr. Nicholl, the chief steel bridge inspector has also gone. He is completing his inspection of bridges east to Red Pass.
